Jointrestor™

- Contains patented FruiteX-B® (Calcium Fructoborate)
- Helps promote joint comfort, mobility, and flexibility*
- Supports healthy vitamin D and calcium absorption*

Glucosamine Sulfate

When properly absorbed, glucosamine sulfate:

- Supports joint function and mobility, especially in the knees*
- Supports the maintenance of cartilage*
- Nutritionally supports the body's ability to mend normal wear of joints associated with aging*
- May have a mild effect on balancing inflammatory mediators*

Actisity™

White Willow (Salix alba) Bark Extract

- Has been known to provide joint and back relief and improved mobility and flexibility*
- Promotes a healthy balance of inflammatory mediators*

Bromelain

- Assists with digestion of proteins*
- Promotes balance of inflammatory mediators*

Quercetin

- Supports a healthy cardiovascular system*
- Helps maintain normal blood pressure levels*
- Promotes a healthy immune system after exercise*

Resveratrol

- Powerful antioxidant and anti-aging nutrient*
- May have various anti-aging benefits*

Myrrh

- Supports digestion*
- Used to promote immune health and joint mobility*

Yucca

- Traditionally used for joint health, mild stomach discomfort, and cardiovascular health.*
- Believed by some to have antioxidant properties and to promote a healthy inflammatory response*

Saffron

- Has antioxidant properties and promotes a healthy inflammatory response*
- Supports normal cell proliferation*
- May support the cardiovascular system*
